Meeting Notes – Sprint Retrospective & Project Debrief

Project: Reducing Post-Harvest Tomato Losses in Nigeria
Group: Farm2door Group 7
Date: 22 July 2026
Meeting Type: Sprint Retrospective & Presentation Debrief
Prepared By: Awoyemi Damilola (Virtual Assistant)

Meeting Objective

To review the outcome of the project presentation, reflect on the team's performance throughout the sprint, recognize key contributions, and identify lessons learned for future projects.

Attendees

- Onwusi Micheal Chidiebere
- Michael (Project Lead)
- Representatives from Product Management, Virtual Assistant, UI/UX, Backend, Data Analytics, AI/ML, Digital Marketing, Brand Design, and other Group 7 members.

Agenda

1. Presentation review
2. Team performance and contributions
3. Lessons learned
4. Future recommendations

Discussion Summary

1. **Presentation Review**

- The team reflected on the successful completion of the project presentation.
- The judges commended the presentation for its quality, organization, and adherence to the project requirements.
- Feedback received suggested that future presentations should include a dedicated Marketing Strategy slide to provide a more comprehensive overview of the product launch plan.
- Although a Go-to-Market (GTM) plan was included, the team acknowledged that additional preparation time would have strengthened its presentation.

2. Team Performance

Virtual Assistant Team

- The Virtual Assistant team was recognized for coordinating communication across all functional groups, following up on outstanding tasks, documenting meetings, and supporting overall project execution.
- Their coordination helped improve collaboration and ensured that project activities remained organized throughout the sprint.

Product Management

- The Product Management team received commendation for leading project planning, conducting multiple PRD reviews, coordinating research activities, and maintaining project direction.
- Members were encouraged to increase engagement across all functional teams in future projects to sustain momentum and improve accountability.

UI/UX

- The UI/UX team was acknowledged for delivering a high-fidelity prototype within a short timeframe, providing a key visual asset that strengthened the project presentation.

Backend Development

- The Backend team demonstrated initiative by progressing with API development and authentication features despite the project's tight timeline.

Digital Marketing

- The Digital Marketing team contributed a comprehensive content calendar that supported project documentation and future marketing activities.

3. Leadership & Team Collaboration

- Michael was recognized for providing effective leadership, coordinating cross-functional teams, and delivering a well-structured presentation despite project constraints.
- Team members highlighted the strong collaboration, mutual support, and consistent meeting attendance that contributed significantly to the project's success.
- Members also acknowledged individuals who stepped in to support other teams whenever additional assistance was required.

Key Achievements

- Successful project presentation delivered within the allotted time.
- Positive feedback received from judges regarding presentation quality and compliance with instructions.
- Strong collaboration across multiple functional teams.
- Delivery of a functional prototype and supporting project documentation within the sprint timeline.
- Effective coordination and communication throughout the project lifecycle.

Recommendations

- Include a dedicated Marketing Strategy slide in future presentations.
- Encourage greater participation across all functional teams.
- Maintain consistent communication and collaboration between departments.
- Continue using structured documentation, regular follow-ups, and meeting notes to improve project execution.

Action Items

No action items were assigned during this meeting.

Next Steps

- Apply lessons learned from this sprint to future projects.

- Continue strengthening cross-functional collaboration and communication.
- Build on the team's successful workflow and best practices for upcoming assignments.

Meeting Conclusion

The meeting concluded with a celebration of the team's successful project delivery and appreciation for the contributions of all members. The team reflected on the importance of collaboration, effective communication, and shared responsibility in achieving project goals. Members agreed to carry these lessons forward into future projects while continuing to improve planning, coordination, and presentation quality.
